Immunizations

Since 2013, the State of Indiana has mandated that students entering grades 6-12 must have received the following immunizations:

-Tdap

-2nd Varicella (Chicken Pox) – is not needed if the student has had the Chicken Pox.

Please contact your child's physician to check on his or her immunization status. Information regarding your child's receipt of these immunizations may be faxed to Nurse Michels at 283-7208.

Hepatitis B Vaccine

The Health Department recommends that students entering high school receive the Hepatitis A, B, and HPV vaccines. Contact the nurse or your health care provider with questions.

Medication

Students who require medications during the school day must :

-Have a completed medication form on file.

-Assure that the medications are in their original containers.

-Not bring nonprescription medications to school unless ordered by their doctor.

-Not carry medications on their person or keep them in their locker.

-Have a medication permit to carry and use an inhaler.
